

# Sabercat Creek Riparian Habitat Restoration Project

● Pampas Grass

● Date palm

● English ivy

! Dead elm trees to be removed (3-4 trees/point)  
All trees less than 4" in DBH

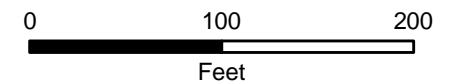

— Sabercat Creek

■ Focused Planting Zone 1 (see Table 1 for specific plant details)

■ Focused Planting Zone 2 (see Table 1 for specific plant details)

■ Focused Planting Zone 3 (see Table 1 for specific plant details)

■ Interspersed Planting Area (see Table 2 for specific plant details)

1:1,200

Date: 9/15/2010

Table 1: Plant palette for the Focused Planting Zones

Scientific Name	Common Name	Container Size	# of plants				Planting Details
			Focused Planting Zone 1	Focused Planting Zone 2	Focused Planting Zone 3	total	
Acer negundo var. californicum	box elder	4-gal TP		2	6	8	place individually
Aesculus californica	California buckeye	4-gal TP	3		12	15	groups of 2-3, 15' centers
Baccharis pilularis	coyote bush	D-16	20		9	29	groups of 3, 6' centers; plant in open area along the trail
Heteromeles arbutifolia	toyon	D-40 or TB 4	25	3	12	40	groups of 2-3, 8' centers
Holodiscus discolor	oceanspray	D-16, D-40, TB 4	20		15	35	groups of 3, 6' centers
Quercus agrifolia	coast live oak	4-gal TP	3		15	18	place individually
Rhamnus californica	California coffeeberry	D-40 or TB 4	25	6	12	43	groups of 2-3, 8' centers
Ribes sanguineum	red flowering current	1-gal or D-16	30	6	20	56	groups of 3, 6' centers
Rosa californica	California rose	D-16	50	6	25	81	groups of 3-5, 5' centers
Sambucus mexicana	blue elderberry	TB 4	6	3	20	29	groups of 2-3, 10' center
Salix lasiolepis	arroyo willow	pole cutting		10	15	25	3' centers; plant along creek channel edge
Symphoricarpos albus var. laevigatus	common snowberry	D-16 or 1-gal	15	6	25	46	groups of 3-5, 5' centers; plant in shade
total			197	42	186	425	

*Container Size:*

*D-16: Deepot 16, 2" dia x 7" deep*

*D-40: Deepot 40, 2.5" dia x 10" deep*

*TB 4: Treeband 4, 4" sq x 10" deep*

*1-gal: 1 gallon pot, 6: dia x 7" deep*

*4-gal TP: 4 gallon treepot, 7.75" sq. x 18" deep*

Table 2: Plant palette for the Interspersed Planting Area

Scientific Name	Common Name	Container Size	# of plants	Planting Details
Acer negundo var. californicum	box elder	4-gal TP	3	place individually
Aesculus californica	California buckeye	4-gal TP	3	place individually
Heteromeles arbutifolia	toyon	D-40 or TB 4	12	place individually
Quercus agrifolia	coast live oak	4-gal TP	4	place individually
Rhamnus californica	California coffeeberry	D-40 or TB 4	12	groups of 2-3, 8' centers
Ribes sanguineum	red flowering current	1-gal or D-16	12	groups of 2-3, 6' centers, plant in shade
Rosa californica	California rose	D-16	15	groups of 3, 5' centers
Sambucus mexicana	blue elderberry	TB 4	12	place individually
Salix lasiolepis	arroyo willow	pole cutting	25	3' centers; plant along creek channel edge
Symphoricarpos albus var. laevigatus	common snowberry	D-16 or 1-gal	12	groups of 3-5, 5' centers; plant in shade
total			110	

*Container Size:*

*D-16: Deepot 16, 2" dia x 7" deep*

*D-40: Deepot 40, 2.5" dia x 10" deep*

*TB 4: Treeband 4, 4" sq x 10" deep*
